MINISTER'S MESSAGE

In 1992, Alberta's exports once again performed strongly as the value of merchandise exports increased by 9.6% to \$17.7 billion.

Alberta's continued prosperity is related to our ability to both compete and work with companies and governments beyond our borders. Our growth depends on increasing the value of our exports, in particular our exports of value-added goods and services, and on attracting tourists to Alberta. Building competitive industries requires scanning the world for new technologies and management methods. Expanding our industries and infrastructures will require new investment from across Canada and from other countries.

The health of Alberta's economy is based on the worldwide exports of resources, manufactured goods and services. The "*Alberta Advantage*" helps us to attract people, business and capital to the province to help us conduct our international business in the most competitive way.

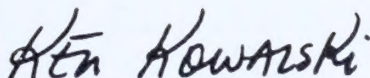

What is the "*Alberta Advantage*"? Our province is home to the most highly educated and productive workforce in Canada. The business sector also benefits from the infrastructure of well-planned cities,

and abundant supplies of energy and natural resources. We have the lowest overall taxes and no provincial sales or inheritance taxes. The key to the "*Alberta Advantage*", however, is the entrepreneurial spirit of its citizens and a province-wide dedication to free enterprise.

Alberta's exporters demonstrated their skill in the competitive arena of international trade, marketing their products and expertise to over 140 countries in 1992. International exports of goods and services accounted for about 25% of Alberta's Gross Domestic Product (GDP) and created jobs and new investment.

Events in Eastern Europe and the countries of the Former Soviet Union have altered the political map, and affected Alberta businesses. Political and economic changes will likely continue to cause uncertainty and this will create challenges for Alberta business over the next decade.

The Government of Alberta believes that exports are an important component of sustained economic growth. We hope this publication will provide useful information to Alberta businesses aiming to expand their international sales and to those entering the world marketplace.

Ken Kowalski
Deputy Premier
Minister, Economic Development & Tourism

PREFACE

International trade is vitally important to the increased growth of the Alberta economy. The value of Alberta's exports of goods and services increased 9.8% to \$19.4 billion in 1992 compared to 1991. This represented approximately 25% of the province's gross domestic product.

The export of primary goods remains the strength of Alberta's goods exports valued at \$12.8 billion in 1992. Oil, gas and sulphur exports remain the single largest commodity export valued at approximately \$10 billion or 51% of Alberta's goods and service exports. Primary agriculture is also an important export sector valued at \$2.3 billion or 12% of total exports.

International exports generate wealth for the province and create jobs. The Alberta Government is working to increase the attractiveness of doing business with Alberta companies through a competitive tax and regulatory regime, investment in human resources, supportive infrastructure and encouragement for industry-led economic development and strategic

partnerships with business and communities. These all add to produce the Alberta Advantage.

These actions have been largely successful. The value of international goods exports has increased since 1989. The Alberta economy is diversifying into value-added or manufactured goods exports. The value of manufacturing exports was worth 24.2% of Alberta exports in 1992. This was the second largest sector after mining. Manufacturing exports were \$4.7 billion, twice that of primary agricultural exports.

Alberta exported to over 140 countries in 1992. The largest single market remains the United States, representing 76.5% of Alberta's exports. Japan and China were the second and third largest markets, accounting for 6.1% and 3.1% of Alberta's exports.

This review of Alberta's 1992 export performance is intended to provide Alberta businesses with valuable information on current export markets.

ABOUT THE DATA

This publication provides a convenient data source for Alberta's international trade in goods. For each country to which Alberta exported at least \$1 million in goods in 1992, a profile of the top 15 Alberta products to that country is presented. For comparative purposes, Canadian exports are also shown. A summary of export totals to all countries is included in Appendix B.

The trade commodity nomenclature used is the Harmonized Commodity Description and Coding System (Harmonized System or HS), adopted by Statistics Canada in 1988.

Exports by geographic region, industry, and commodity are also provided in the following sections. Statistics Canada regional groupings are used. Industry groupings are based on Statistics Canada's publication on concordance between export commodity and industry classifications (see Appendix A). For commodities, six-digit HS codes have occasionally been grouped in order to present more commonly understood descriptions.

For the purposes of this publication, six-digit HS codes are presented in the country profile tables. For simplicity, commodity descriptions accompanying these codes may have been revised slightly from their standard format. Readers requiring the exact content of a particular HS number, therefore, are referred to the Customs Tariff Schedule of Canada.

In 1990, a new system of data exchange was initiated between Canada and the United States. Improved data capture resulted in higher export values for most of the commodity categories trade to the United States.

While this will not affect comparisons between 1992 and 1991 data, caution should be used in interpreting longer-range trends which include export data to the United States.

Statistics Canada is the main source for this publication. However, Alberta Agriculture publishes export statistics for agricultural commodities which more accurately reflect Alberta's contribution to Canada's agricultural production for export. The system is based on HS codes but better allocates exports to their point of origin. For this report, agricultural revisions have not been included. The reader is encouraged to contact Alberta Agriculture for revised information.

Information captions appearing at the top right corner of each country profile are sourced from the "Handbook of Nations, 12th Edition" and "International Financial Statistics".

The term "exports" refers to "domestic exports": goods grown, extracted or manufactured in Canada, and includes goods of foreign origin which have been materially transformed in Canada and then re-exported.

Unfortunately, service exports cannot be included on a country-specific basis since these data are not presently available. However, total service exports (including tourism) have been provided in the following "Year in Review" section. Throughout the remainder of this document, "exports" will refer strictly to merchandise exports.

THE YEAR IN REVIEW

Alberta's exports of goods and services totalled \$19.4 billion in 1992, a 9.8% increase over 1991. Exports of goods grew 9.6% from \$16.1 billion in 1991 to \$17.7 billion in 1992. Exports of services increased 3.4% from \$1.7 billion in 1991 to \$1.8 billion in 1992. Much of the growth in the service industry was seen in tourism, which is estimated to have grown 5.9%.

Alberta's 9.6% growth in the export of goods was below that for Canada (11.3%). Factors which may have influenced international trade were:

- the value of the Canadian dollar decreased in value against the U.S. dollar.
- the persistence of slower economic growth in many regions and countries restrained demand and consumption in these markets.
- continuing economic and political restructuring in Eastern Europe, and the prospect for tighter economic integration in Western Europe, created an element of uncertainty for business in these markets.

Of the major sectors, primary agriculture experienced the largest increase in the value of exports in 1992. Growth from \$1.9 billion to \$2.3 billion resulted in an increase of 18.6%.

All mining exports also saw a significant increase in exports (14.9%). Specifically, oil and gas and sulphur exports increased significantly from \$8.7 billion in 1991 to \$10.0 billion in 1992, a 14.7% increase. Manufacturing experienced a slight decline of 1.2%.

Alberta exported to over 140 countries in 1992. Exports increased to six of the top 10 country markets from 1991 to 1992. Increases in exports were recorded in half of the geographic regions which Alberta exports to in 1992. Most notable were exports to Central America, Mexico and the Caribbean, up 33.3% over 1991. Exports to Mexico more than doubled from \$34.7 million to \$75.9 million which was primarily due to the increase in wheat exports. Exports to Cuba also showed significant growth of 50.2%. Exports to South America were also up significantly (32.7%). Brazil and Colombia showed the greatest increases for this region, up 23.1% and 150.6%, respectively, primarily in wheat exports. The Middle East showed a dramatic decrease of 64.0% which was primarily due to the decrease in exports to Kuwait from \$321.6 million in 1991 to \$2.6 million in 1992.

Asia was Alberta's single largest regional market after the United States, accounting for 14.1% of all commodity exports.

ALBERTA EXPORTS BY INDUSTRIES, COMMODITIES & COUNTRY

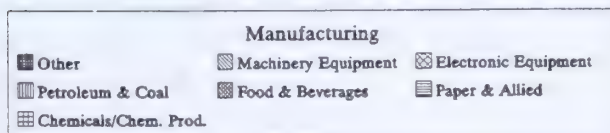

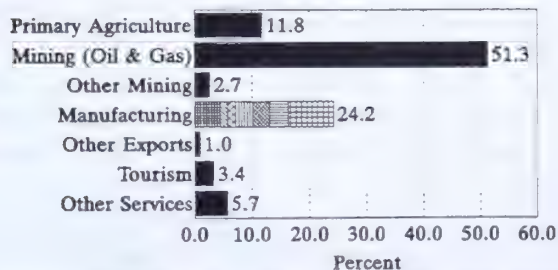

Alberta's exports of goods and services grew 9.8% in 1992 from \$17.7 billion to \$19.4 billion. This growth can be attributed to the growth in mining (14.9%), specifically oil, gas and coal. Primary agriculture also experienced significant growth (18.6%). Manufacturing declined in 1992 (1.2%) and as did other exports (22.0%). The export of services grew 3.4% primarily as a result of tourism, which increased 5.9%. Unfortunately, services exports are difficult to measure by industry or country, since these data are not presently available. Therefore, throughout the remainder of this document, "exports" will refer strictly to merchandise exports.

The mining industry accounted for 54.0% of Alberta's exports in 1992. This is more than a 2% increase compared to 1991 in the share of exports. Manufacturing lost 2.5% share of total exports from 26.7% of total exports in 1991 to 24.2% in 1992. Primary agriculture and all other exports maintained their share of total exports.

Of the 16 manufacturing sectors, 12 showed growth over 1991. Notable losses were experienced in transportation equipment (78.3%), refined petroleum and coal products (19.5%) and primary metals (11.3%). These changes resulted in a decrease in manufacturing exports of 1.2%.

Source: Statistics Canada

Agriculture, Food and Beverages

For this report, agricultural revisions have not been included. The reader is encouraged to contact Alberta Agriculture for revised information.

The combined value of Alberta's primary agriculture and food and beverage exports was \$2.9 billion, a 17.2% increase from 1991. Among the top 10 agricultural exports, only three commodities registered decreases compared to 1991. These were raw hides and skin (48.3%), barley (27.7%) and rapeseed/canola seed (0.6%). Significant gains were seen in beef (95.5%), oats (76.1%), live cattle (62.7%), pork (23.8%) and wheat (23.2%).

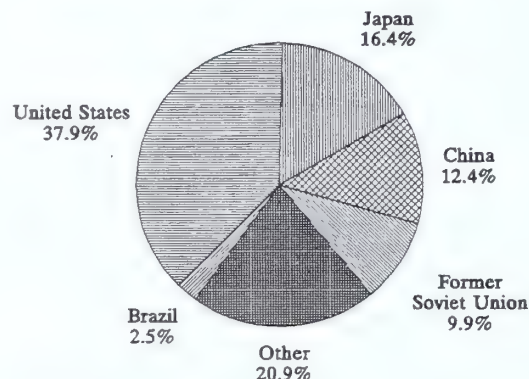

ALBERTA'S MAJOR AGRICULTURAL EXPORTS (including Food & Beverage Manufacturing)

	1991 (\$000s)	1992 (\$000s)	Percent Change
Wheat	1,013,227	1,248,311	23.2
Cattle, live	286,601	466,749	62.9
Rapeseed/canola seed	201,710	200,550	-0.6
Beef	96,288	188,230	95.5
Barley	221,178	159,865	-27.7
Pork	81,960	101,475	23.8
Canola & Mustard oil	57,995	64,432	11.1
Raw hides & skins	96,489	49,861	-48.3
Oats	24,372	42,930	76.1
Malt	40,061	40,188	0.3
Total Above	2,119,881	2,562,591	20.9
TOTAL ALL OTHER AGRICULTURE	2,397,144	2,881,665	14.4

Alberta's primary market for agricultural products was the United States accounting for \$1.1 billion or 37.9% of Alberta agricultural exports in 1992. Japan was the second largest market importing \$472.9 million (16.4%), followed closely by the People's Republic of China at \$355.9 million (12.4%). Compared to 1991, the Former Soviet Union dropped from our third largest importer to our fourth largest importer of agricultural goods. China rose from fourth to third place. Brazil replaced South Korea as Alberta's fifth largest market for agricultural products.

AGRICULTURAL PRODUCTS EXPORTS ALBERTA'S MAIN MARKETS (includes Food & Beverage Manufacturing)

Total Value of Exports \$2.9 Billion

Forestry

The value of exports of primary forestry products, wood products and paper and allied products, including wood pulp was \$850.8 million. The majority of these exports were pulp and lumber. Wood pulp exports were valued at \$584.2 million, which represents a 29.1% increase over 1991. Wood products also contributed significantly to this area, valued at \$119.3 million.

ALBERTA'S MAJOR FORESTRY EXPORTS (includes Wood Products, Paper & Manufacturing)

	1991 (\$000s)	1992 (\$000s)	Percent Change
Wood Pulp	452,499	584,227	29.1
Lumber	149,458	119,344	-20.1
Particle Board	60,673	92,865	53.1
Paper and Paper Board	14,552	19,307	32.7
Fibre Board	15,881	17,250	8.6
Total Above	693,063	832,993	20.2
TOTAL ALL FORESTRY	711,704	850,762	19.5

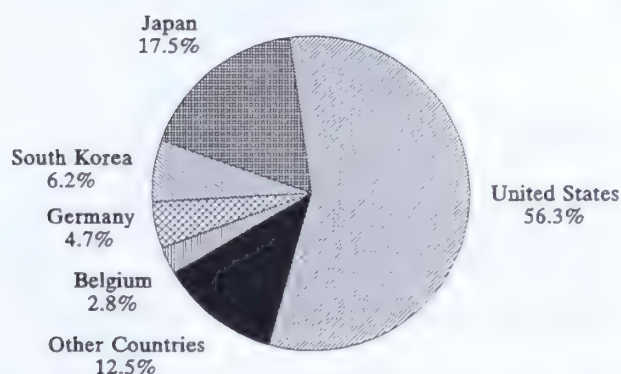

The primary market for these products is the United States. More than half (56.3%) of Alberta's forestry exports are destined for the United States. Japan is also a large market. The value of forestry exports to Japan in 1992 was \$149.0 million or 17.5% of all forestry exports.

FORESTRY PRODUCTS EXPORTS

ALBERTA'S MAIN MARKETS

(including Wood Products & Paper & Allied Manufacturing)

Total Value of Exports \$850.8 Million

Mining (Oil, Gas, Sulphur and Other Mining)

In 1992, the mining industry contributed \$10.5 billion to Alberta's economy. This is a significant increase (14.9%) from 1991. Ninety-five per cent of mining exports comprised crude petroleum, natural gas and sulphur. Sales of these three products increased 14.7% over the previous year. The remaining mining products comprised \$527.9 million in exports which resulted in a 19.4% increase over 1991.

Crude petroleum was Alberta's largest mining commodity exported followed by natural gas. The increased value of natural gas sales (33.3% over 1991) is largely responsible for the increase in mining exports. Coal also contributed significantly to this industry with \$524.1 million, a 19.7% increase over 1991. The value of sulphur exports decreased substantially in 1992 from \$530 million to \$347 million, a 34.5% decrease.

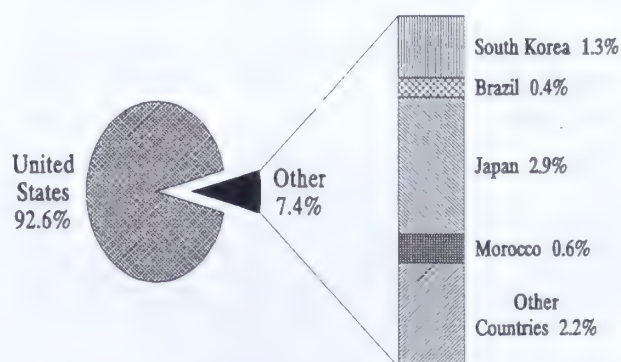

ALBERTA'S MAJOR MINING EXPORTS (All Mining)

	1991 (\$000s)	1992 (\$000s)	Percent Change
Crude Petroleum	5,121,473	5,565,613	8.7
Natural Gas	3,047,208	4,062,750	33.3
Coal	437,835	524,118	19.7
Sulphur	530,237	347,264	-34.5
Natural barium sulphate (barytes)	2,660	2,786	4.7
Total Above	9,139,413	10,502,531	14.9
TOTAL ALL MINING	9,141,281	10,503,642	14.9

Alberta's markets for mining products have remained unchanged from 1991. The United States remains Alberta's primary market, accounting for 92.6% of exports or \$9.7 billion. Japan and South Korea ranked a distant second and third with \$300 million and \$135 million, respectively.

MINING PRODUCTS EXPORTS ALBERTA'S MAIN MARKETS (includes all mining)

Total Value of Exports \$10.5 Billion

Manufacturing

Alberta's exports of manufactured products totalled \$4.7 billion in 1992, which is down slightly from \$4.8 billion in 1991. Chemicals and chemical products accounted for approximately one-third of manufactured exports. Food, feed and beverages accounted for 12.5% of manufactured exports, and refined petroleum and coal products accounted for 12.0%.

In terms of Alberta's top ten manufactured exports, all but three showed decreases over 1991. Wood pulp (29.1%), petroleum oils (42.9%) and urea (2.3%) showed increases. Significant decreases were noted for liquefied butane (49.9%), methanol (31.6%), liquefied propane (26.3%), styrene (21.8%) and lumber (20.1%). The export of wood pulp has continually grown since 1990 from \$376 million to \$584 million in 1992.

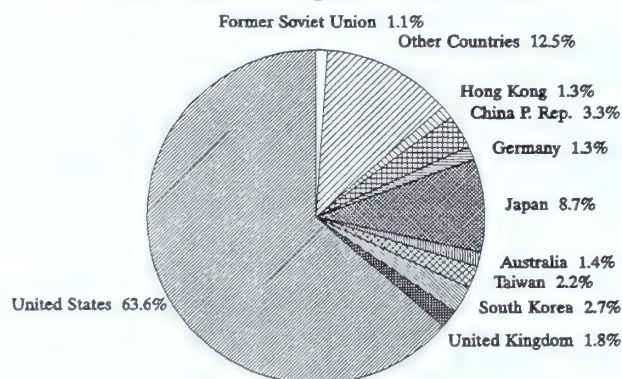

ALBERTA'S MAJOR MANUFACTURING EXPORTS

	1991 (\$000s)	1992 (\$000s)	Percent Change
Wood Pulp	452,499	584,227	29.1
Polyethylene	425,486	394,755	-7.2
Petroleum oils, other than crude	133,830	191,215	42.9
Propane, liquefied	243,172	179,317	-26.3
Urea	166,609	170,455	2.3
Ethylene glycol (ethanediol)	182,251	167,588	-8.0
Methanol (methyl alcohol)	208,380	142,638	-31.5
Butanes, liquefied	251,451	125,968	-49.9
Lumber	149,458	119,344	-20.1
Styrene	148,586	116,235	-21.8
Total Above	2,361,722	2,191,742	-7.2
TOTAL ALL MANUFACTURING	4,761,732	4,705,220	-1.2

The United States is Alberta's most important market for manufactured goods. The United States purchased 63.6% of our exports with a value of almost \$3 billion. Japan is Alberta's second largest market importing \$411 million worth of goods. Hong Kong and the Former Soviet Union have replaced Kuwait and Indonesia in Alberta's top ten manufacturing markets.

MANUFACTURED PRODUCTS EXPORTS ALBERTA'S PRIMARY MARKETS

Total Value of Exports \$4.7 Billion

Machinery

Exports of machinery were valued at \$260 million in 1992. This represents a 35% increase over the 1991 value of \$192.7 million. Machinery represents 1.5% of total exports and 5.5% of manufacturing exports.

A quarter of machinery exports were boring and sinking machinery for oil and gas production. This commodity had an increase in value of 7.3% over 1991. Many machinery exports, notably parts of hydraulic and pneumatic engines (121.1%), and mobile drilling derricks (95.3%), saw large increases over 1991.

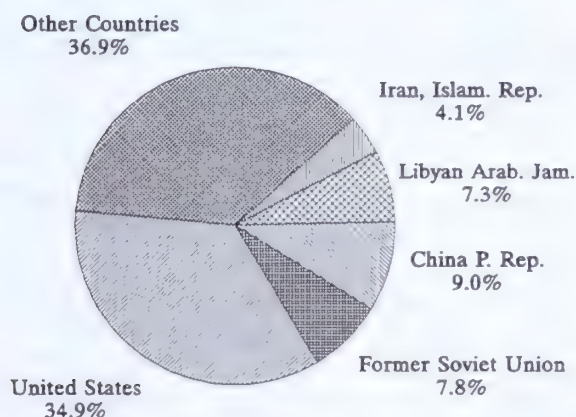

ALBERTA'S MAJOR MACHINERY EXPORTS (excludes Electrical & Transportation Equipment)

	1991 (\$000s)	1992 (\$000s)	Percent Change
Boring & Sinking Machinery & parts	60,723	65,136	7.3
Machines & their parts having individual functions	30,667	46,884	52.9
Hydraulic Power Engines & Motors	11,570	11,905	2.9
Mobile drilling derricks	5,578	10,891	95.2
Parts of Hydraulic & Pneumatic Engines	4,180	9,241	121.1
Total Above	112,718	144,057	27.8
TOTAL ALL MACHINERY	192,729	260,208	35.0

Over one-third of machinery exports went to the United States. The United States was followed by the People's Republic of China (\$23.5 million), the Former Soviet Union (\$20.2 million), Libyan Arab Jamahiriya (\$19.0 million) and Iran (\$10.7 million).

MACHINERY PRODUCTS EXPORTS ALBERTA'S PRIMARY MARKETS (excludes Electrical & Transportation Equipment)

Total Value of Exports \$260.2 Million

Electrical and Electronic Equipment

The electrical and electronic equipment industry showed a significant increase (13.6%) in the value of exports over 1991. Exports reached \$291.3 million in 1992.

All five leading electrical and electronic equipment commodities showed growth in excess of 25% over 1991. The value of these exports is the highest recorded since 1988 when the harmonized commodity description and coding system was adopted.

Telephone sets valued at \$65.5 million, accounted for 22.5% of this industry's exports. This was an increase of 48.4% over 1991 values. Transmission apparatus for radio telegraphs grew from \$43.3 million in 1991 to \$61.1 million in 1992.

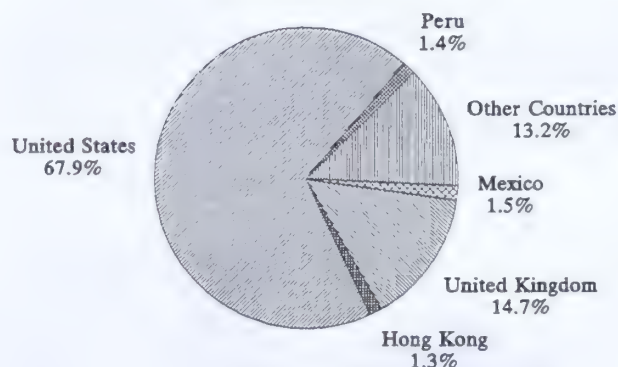

ALBERTA'S MAJOR ELECTRICAL & ELECTRONIC EQUIPMENT EXPORTS

	1991 (\$000s)	1992 (\$000s)	Percent Change
Telephone Sets	44,134	65,499	48.4
Transmission apparatus for radiotelegraph incorporating reception apparatus	43,313	61,087	41.0
Telephonic or telegraphic switching apparatus	28,886	36,140	25.1
Parts of electrical apparatus for line telephone or telegraphy	24,456	34,755	42.1
Parts and accessories of automatic data processing machines & units thereof	6,137	14,506	136.4
Total Above	146,926	211,987	44.3
TOTAL ALL ELECTRICAL/ELECTRONIC	256,575	291,345	13.6

The United States is Alberta's largest market for electrical and electronic equipment, accounting for over two-thirds or \$197.9 million of the province's exports. The United States was followed by the United Kingdom as the second largest market valued at \$42.9 million.

ELECTRICAL PRODUCTS EXPORTS ALBERTA'S PRIMARY MARKETS

Total Value of Exports \$291.3 Million

Refined Petroleum and Coal Products

Valued at \$564.1 million in 1992, refined petroleum and coal products was the third largest export category among manufactured goods. This is a drop from second place last year. This sector experienced a 19.5% decrease in the value of exports over 1991.

Of the five largest commodities in this sector, two saw growth in 1992. Petroleum oils, other than crude, increased by 42.9% from \$133.8 million to \$191.2 million. Liquefied propane gases experienced a 3.3% increase in value. Liquefied butane experienced the largest decrease of 49.9% from \$251.5 million in 1991 to \$126.0 million in 1992.

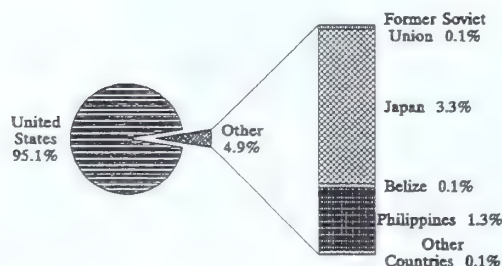

ALBERTA'S MAJOR REFINED PETROLEUM & COAL PRODUCTS EXPORTS

	1991 (\$000s)	1992 (\$000s)	Percent Change
Petroleum oils other than crude	133,830	191,215	42.9

TOTAL ALL REFINED PETROLEUM	700,699	564,140	-19.5

The United States is by far Alberta's largest international market accounting for 95.1% of all refined petroleum and coal product exports.

REFINED PETROLEUM & COAL PRODUCTS EXPORTS ALBERTA'S PRIMARY MARKETS

Total Value of Exports \$564.1 Million

Chemicals and Chemical Products

Chemicals and chemical products is the largest sector of the manufacturing industry. This sector accounted for \$1.5 billion or 32.7% of all manufacturing exports. The chemicals sector experienced growth of 3.3% over 1991.

All but one of Alberta's five largest chemical exports experienced a decline in export sales. The exception was urea which grew from \$166.6 million to \$170.5 million or a 2.3% increase. Alberta's top chemical product, polyethylene, decreased 7.2% from \$425.5 million to \$394.8 million.

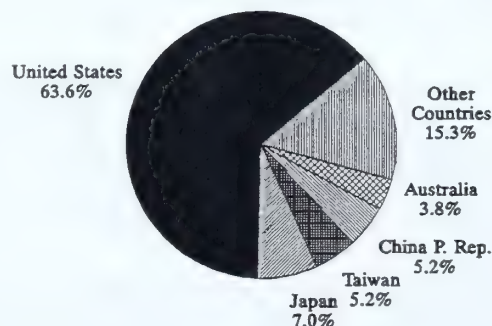

ALBERTA'S MAJOR CHEMICALS & CHEMICAL PRODUCTS EXPORTS

	1991 (\$000s)	1992 (\$000s)	Percent Change
Polyethylene	425,486	394,755	-7.2
Urea	166,609	170,455	2.3

Total Above	1,131,312	991,671	-12.3
TOTAL ALL CHEMICALS/PRODUCTS	1,489,700	1,539,064	3.3

Almost sixty-four per cent or \$978 million of chemicals/products exports were to the United States. This is an increase in market share from 53.1% in 1991 to 63.6% in 1992.

CHEMICALS & CHEMICAL PRODUCTS EXPORTS

Total Value of Exports \$1.5 Billion

Other Manufacturing

As a group, "other manufacturing" decreased by 31.2% from \$890.2 million in 1991 to \$612.6 million in 1992.

Artificial filament tow, a product of the textile industry, was the highest valued export of the other manufacturing sector at \$96.4 million. This commodity increased in value by 21.3%. This is a significant gain given its stability over the past couple of years.

ALBERTA'S MAJOR OTHER MANUFACTURED PRODUCTS EXPORTS

	1991 (\$000s)	1992 (\$000s)	Percent Change
Artificial filament tow	79,526	96,430	21.3

Total Above	232,706	322,675	38.7
TOTAL ALL OTHER MANUFACTURING	890,175	612,604	-31.2

The other manufacturing sector is divided into three large sub-categories of textile products, fabricated metals, and transportation equipment.

Textile products were exported to the People's Republic of China (\$40.8 million) and Hong Kong (\$32.1 million). These two countries combined accounted for 74.8% of Alberta's textile exports.

Fabricated metals were exported to the United States (\$26.5 million), Algeria (\$11.8 million) or the Former Soviet Union (\$10.7 million). The United States accounted for 35.6% of Alberta's fabricated metal exports. Algeria and the Former Soviet Union combined, accounted for an additional 30.3% of fabricated metal exports from Alberta.

ALBERTA EXPORTS BY COUNTRY, REGION AND INDUSTRY

The United States continues to be Alberta's main foreign export market accounting for 76.5% of export revenues. The value of exports to the United States increased considerably (15.5%) from \$11.7 billion in 1991 to \$13.5 billion in 1992. The United States market share of Alberta exports at 76.5% is the highest since 1988.

Japan and China continue to be the second and third largest markets for Alberta exports. The value of exports to Japan decreased 2.6% from 1991 while the value of exports to China increased 27.6%. This notable increase in exports to China is also responsible for their increase in market share. The Former Soviet Union remained in fourth place but suffered a decrease of 7.9%. South Korea replaced Kuwait for fifth place. South Korea was followed by Taiwan, the United Kingdom and Brazil. Two new additions were Indonesia and Iran. The United Kingdom (14.0%), Brazil (23.1%), Indonesia (26.4%) and Iran (12.5%) all had an increase in the value of Alberta exports, however, market share remained relatively unchanged.

The United States, Asia, Western Europe, South America and Central America all experienced an increase in sales in 1992 compared to 1991. The largest increases were seen in exports to Central

America (33.2%) and South America (32.7%). Although both these regions experienced growth in Alberta exports, they represent small markets for Alberta (South America is 1.4% of the total market, with Central America at 0.7%).

Asia was Alberta's second largest regional market maintaining its market share of 14.1%. Exports to Asia reached almost \$2.5 billion, a 5.0% increase over 1991. Western Europe, Alberta's third largest market, continues to maintain its market share of 2.6%, posting increases of 9.3% over 1991.

ALBERTA EXPORTS TO NON-U.S. MARKETS, 1992

Total Value of Exports \$4.2 Billion

UNITED STATES OF AMERICA

Alberta's exports to the United States increased by 12.5% on an average annual basis over the period 1989 to 1992. The gain over this period may be overstated. Changes to the data collection methodology were made in 1990 which resulted in improved data capture and higher value estimates arising from the inclusion of freight charges in the evaluation process.

In 1992, Alberta exports to the United States totalled \$13.5 billion or 11.4% of total Canadian exports to the United States.

Mining products were the largest export to the United States accounting for 71.9% of all Alberta exports to the United States. The United States is Alberta's largest market for oil, gas and sulphur, accounting for 97.1% of Alberta's oil, gas and sulphur exports.

EXPORTS TO THE U.S. BY INDUSTRY

	1992 (\$000s)	% of Total

ALBERTA EXPORTS TO ASIA, 1992

Total Value of Exports \$2.5 Billion

Asia is Alberta's second largest regional export market after the United States with a value of \$2.5 billion. Exports to Asia amount to 14.1% of all Alberta exports. Over 40% of all Alberta's primary agriculture exports are to Asia. However, of all exports to Asia, agriculture is worth \$938.8 million or 37.7%. Manufacturing accounts for the largest amount of exports to Asia (\$1.0 billion or 41.4%). Within the manufacturing sector, chemicals and chemical products are the leading export valued at \$442.1 million. Twenty-nine per cent of Alberta's chemical product exports are to Asia.

EXPORTS TO ASIA BY INDUSTRY

	1992 (\$000s)	Percent of Total
Primary Agriculture	938,762	37.7
Mining	512,375	20.6
Manufacturing	1,030,442	41.4

Other Exports	9,986	0.4
Total	2,491,565	100.0

Japan

Japan was Alberta's largest market in Asia accounting for 43% of the value of all exports to the region.

A slight decrease in average annual growth (0.4%) since 1989 has been seen in the Japanese market, however, a 2.6% decrease was experienced between 1991 and 1992.

Coal remained the largest single commodity export to the country although there was a 10.0% decrease from 1991. At \$300.7 million, it comprised 28.1% of exports to Japan. Fifty-seven per cent of Alberta's mining exports (excluding oil/gas/sulphur) were to Japan. Primary agriculture exports generated \$357.7 million. Significant commodities included rape or canola seeds, wheat and barley. Manufactured goods, valued at \$411.3 million, represented 38.4% of Alberta's exports to Japan. Popular commodities included paper - valued at \$124.7 million; food, feed, beverages and tobacco - \$115.2 million; and chemical and chemical products - \$107.3 million.

After the United States, Japan was the largest importer of Alberta goods. It was also Canada's second largest market. Japan was Alberta's largest market for mining (excluding oil, gas and sulphur), second largest for manufactured goods, specifically food, feed, beverages and tobacco, wood products, paper and allied, refined petroleum and coal products, and chemicals/products.

China

Exports to China, Alberta's third largest market overall, increased in 1992 for the third consecutive year. Growth since 1989 has averaged 35.4%.

Almost two-thirds of exports to China were from the agriculture industry. Wheat accounted for \$335.5 million of the \$355.9 million in agriculture exports.

Manufacturing exports ranked second after agriculture accounting for 28.9% of exports to China. China was Alberta's third largest market for manufactured goods with a total value of \$157.6 million. Chemical products was the most significant sector in manufacturing, accounting for 50.3% of all manufacturing exports. Textiles were also important, valued at \$40.8 million. China was the largest market for Alberta's textile industry, responsible for 41.9% of the industry's exports. Machinery exports of \$23.5

million resulted in this being Alberta's second largest market.

South Korea

South Korea was Alberta's third largest Asian market and ranked fifth overall. A total of \$288.6 million in goods were exported to South Korea in 1992. Exports to South Korea have experienced a moderate decline of 4.5% since 1989.

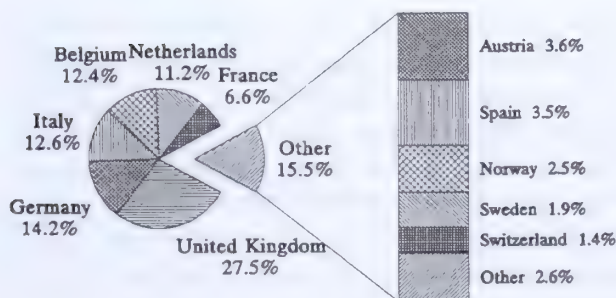

Forty per cent of the province's exports to South Korea were mining products, almost exclusively comprised of coal exports. Almost forty-three per cent (42.9%) of Canadian exports of coal were from Alberta. Manufacturing was the second most important export sector. Chemical products comprised 45.8% of manufacturing exports. The major commodities in this category were ethylene glycol, styrene, methanol and ethylene. Paper and allied products was the second most important manufacturing sector, valued at \$51.8 million.

WESTERN EUROPE

Exports to Western Europe increased for the third consecutive year. Growth of 9.3% between 1991 and 1992 resulted in exports valued at \$459.7 million. This contributed to a 14.8% average annual increase since 1989. Growth in excess of 10% in the past three years has been experienced in 11 of 20 countries. Six countries experienced declines.

TOTAL	459,652	100.0

Almost three-quarters (74.2%) of exports to Western Europe were in the manufacturing sector. Notably, the paper and allied products industry (27.0% or \$123.9 million) primarily wood pulp, the electrical/electronic equipment industry (10.6% or \$48.5 million) and primary metals (10.1% or \$46.5 million).

United Kingdom

The United Kingdom was Alberta's largest market in Western Europe. A 14.0% increase in 1992 to \$126.3 million in exports helped move the United Kingdom from being ranked thirteenth in 1988 to seventh in 1992.

Manufacturing was the largest export industry to the United Kingdom worth \$85.9 million or 68.0% of Alberta's exports to the United Kingdom. Electrical/electronic equipment accounted for half of all manufacturing exports. Five of the fifteen top commodity exports are in this industry. These include telephonic/telegraph switching apparatus, telephone sets, parts of electrical apparatus for line telephone/line telegraphy, parts for transmission/radar/reception/television apparatus and transmission apparatus for radiotelephone incorporating reception apparatus. These five commodities were worth \$31.8 million.

Exports from the mining industry (excluding oil/gas/sulphur) was the second largest sector with a value of \$23.5 million. Coal was the single largest commodity export in this industry valued at \$23.5 million. This was a 297.3% increase from 1991. This represented over half (55.6%) of coal exports from Canada to the United Kingdom. Significant growth in exports of transmission/radio/reception/television apparatus parts was also seen (427.7%). Canadian exports to the United Kingdom of this commodity accounted for \$5.6 million, of which 61.0% was from Alberta.

Germany

The value of total exports to Germany increased by \$16.3 million in 1992 compared to 1991 values. This represented a 33.1% increase. Since 1989, exports to Germany have had an annual increase of 19.7%, moving it to Alberta's 15th largest export market overall.

Almost all (94.5%) exports were concentrated in manufacturing. Paper and allied products sector, specifically the wood pulp sector, accounted for \$38.5 million of the \$61.7 million in manufacturing exports.

Italy

Exports to Italy have increased each year since 1989 resulting in a four-year average annual increase of 21.0%. In comparison, exports from Canada decreased by 0.4% over the same period. In 1992, Alberta exports totalled \$58.1 million.

Wood pulp was the largest single export to Italy from Alberta valued at \$20.5 million. Alberta exports of semi-chemical wood pulp to Italy accounted for 47.3% of Canadian exports. Primary agriculture, consisting primarily of wheat, was the second most important export with a value of \$13.2 million.

Belgium

Exports to Belgium have grown from \$46.7 million in 1989 to \$57.1 million in 1992, an 7.0% average annual increase over the four years. Belgium was Alberta's fourth largest Western Europe market in 1992 and 18th overall.

Three-quarters of Alberta's exports to Belgium were in the manufacturing sector. Of the \$43.4 million in manufacturing exports, \$23.8 million were the paper and allied products.

Netherlands

Exports to the Netherlands amounted to \$51.6 million in 1992. This represents a decrease of 19.7% from \$64.3 million in 1991. Over the past four years, exports to the Netherlands have decreased on average by 7.9%. However, Canadian exports to the Netherlands have also declined, averaging a 2.4% decrease.

Over three-quarters (76.4%) of Alberta's exports to the Netherlands were manufactured goods, primarily primary metals (\$30.5 million). Nickel was the most common metal export valued at \$27.1 million. Alberta's nickel exports to the Netherlands accounted for 57.3% of Canadian nickel exports to the Netherlands.

EASTERN EUROPE

In 1992, \$369.6 million in goods were exported to Eastern Europe. Eastern Europe includes the Former Soviet Union and the Eastern Bloc countries. Exports to Eastern Europe decreased by 7.5% from 1991, however, the four-year average shows a 26.8% growth.

ALBERTA EXPORTS TO EASTERN EUROPE

	1989 (\$000s)	1990 (\$000s)	1991 (\$000s)	1992 (\$000s)	Avg. Annual % Change

The largest single market was the Former Soviet Union, capturing \$350.0 million of the \$369.6 million exported to the region.

ALBERTA EXPORTS TO EASTERN EUROPE, 1992

Total Value of Exports \$369.6 Million

The Former Soviet Union

The Former Soviet Union was Alberta's fourth largest market in 1992. Over a quarter (27.7%) of Canadian exports to the Former Soviet Union are from Alberta. Although there was a 7.9% decline in exports between 1991 and 1992, the four-year average shows a 27.2% increase.

The majority of Alberta's exports to the Former Soviet Union were in the primary agriculture sector (\$286.4 million of total exports of \$350.0 million). Wheat exports, down from last year, still represented the largest single Alberta export with a value of \$259.3 million. Together, wheat and barley exports accounted for 81.8% of all exports to the Former Soviet Union.

Almost 15% of exports were manufactured goods. Machinery, valued at \$20.2 million, and fabricated metal, valued at \$10.7 million, contributed the most to the \$52.3 million in exports of manufactured goods.

MIDDLE EAST

Exports of goods to the Middle East were valued at \$188.7 million in 1992. This was down from \$524.6

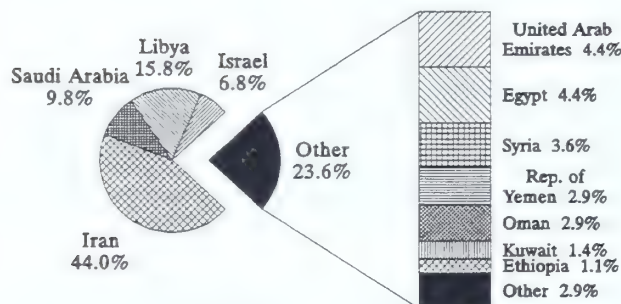

million in 1991. The most notable change was the decrease in exports to Kuwait, from \$321.6 million in 1991 to \$2.6 million in 1992. Exports have been affected by political events in the Middle East, resulting in a four-year average decrease in value of 14.0%.

EXPORTS TO THE MIDDLE EAST BY INDUSTRY

	1992 (\$000s)	Percent of Total

ALBERTA EXPORTS TO THE MIDDLE EAST, 1992

Total Value of Exports \$188.7 Million

Over half of Alberta's exports to the Middle East were in the primary agricultural sector. These totalled \$100.9 million. Also of significance were Alberta's

exports from the manufacturing sector, accounting for \$74.1 million or 39.3% of total exports. Exports of machinery accounted for \$49.7 million or 67.0% of manufactured goods.

Iran

Iran was the largest Middle East market for Alberta exporters. With a total value of \$83.0 million in exports, Iran accounted for 44.0% of all Middle East exports. Over the last four years, exports to Iran have increased at an average annual rate of 11.3%.

The majority (83.5%) of Alberta's exports to Iran were in the primary agricultural sector, exclusively wheat exports. Wheat exports grew by 50.1% from \$46.1 million in 1991 to \$69.2 million in 1992. Canadian exports of wheat grew at the same pace as Alberta's exports.

The manufacturing sector constituted the remaining exports to Iran, primarily in machinery valued at \$10.7 million.

Libya

Libya was Alberta's second largest Middle East market in 1992. Exports to Libya have increased in value each year since 1989, contributing to a four-year average annual growth of 59.8%. 1992 saw an exceptional rate of growth of 155.8%.

Exports of machinery accounted for \$19.0 million of the total \$29.7 million.

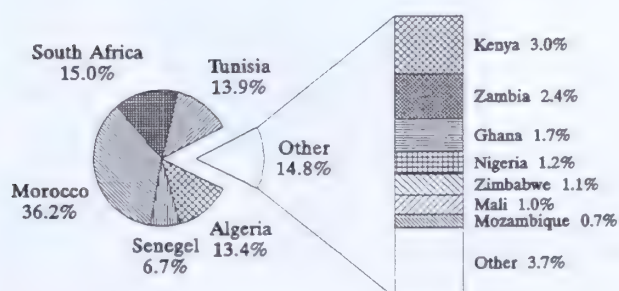

AFRICA

Exports to Africa totalled \$190.0 million in 1992. This was a 13.1% decrease from 1991. Over the last four years, exports to Africa have increased an average 8.0%.

The majority of exports to Africa were in the mining sector, specifically the oil/gas/sulphur sector. This sector accounted for 62.5% of all exports to Africa or \$118.8 million.

Morocco

Morocco, Alberta's largest African market, ranked fourteenth overall with a value of \$68.7 million in exports. Exports to Morocco declined significantly (24.7%) from 1991 to 1992. Since 1989, the average annual growth in exports has been a 19.8% decrease.

Almost all (96.0%) of Alberta's exports to Morocco was crude or unrefined sulphur. Exports of crude or unrefined sulphur decreased by 24.7% from \$87.7 million in 1991 to \$66.0 million in 1992.

South Africa

The value of exports to South Africa increased slightly (3.4%) from \$27.6 million in 1991 to \$28.5 million in 1992. Over the last four years, exports to South Africa have decreased at an average rate of 11.0% per year.

Over half (53.8%) of Alberta's exports were in the sulphur. Sulphur exports increased in value from \$13.4 million in 1991 to \$15.4 million in 1992. Alberta exports of sulphur to South Africa constituted 95.2% of total Canadian sulphur exports to South Africa. Primary agriculture was also an important export, valued at \$11.7 million. The agricultural exports consisted of wheat and canola.

Tunisia

Tunisia accounted for \$26.4 million in exports in 1992. This is a 35.1% decrease over 1991.

The single most important export was sulphur, valued at \$26.0 million. This represented all of Canada's exports of sulphur to Tunisia. Sulphur exports were down from \$39.9 million in 1991 to \$26.0 million in 1992.

Algeria

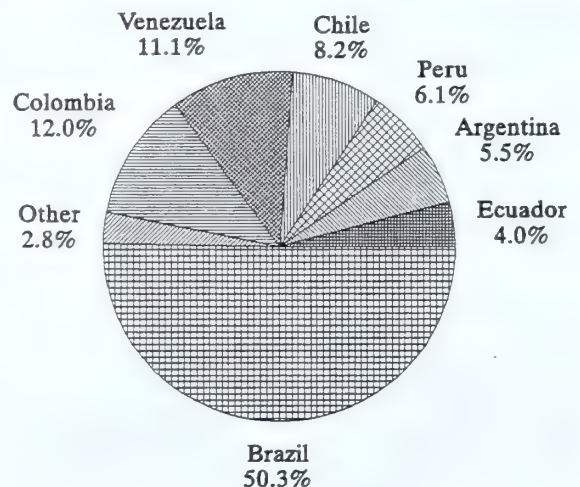

Over the last four years, exports to Algeria have increased by an average of 14.9% per year, this contrasts to Canadian exports which declined by 19.7% for the same period. Alberta exports to Algeria were valued at \$25.5 million in 1992.

Alberta's main export to Algeria were fabricated metals, valued at \$11.9 million. Prefabricated buildings were worth \$10.7 million of this export and accounted for Canada's total exports of this product to Algeria. Agriculture, primarily wheat, was the second most important sector with a value of \$10.1 million.

SOUTH AMERICA

ALBERTA EXPORTS TO SOUTH AMERICA, 1992

Total Value of Exports \$244.5 Million

Alberta exported \$244.5 million in goods to South America in 1992. This was a 32.7% increase over 1991. Over the past four years, average annual growth was 18.7%.

ALBERTA EXPORTS TO SOUTH AMERICA (\$000s)

Brazil

Brazil is Alberta's largest market in South America, accounting for 50.3% of all exports to the region. Exports to Brazil increased 23.1% from \$99.9 million in 1991 to \$123.0 million in 1992. The four-year average has shown a 8.8% increase. This increase is

smaller than the regional average of 18.7%. Brazil currently ranks eighth overall in Alberta's export markets.

Almost 58.0% of Alberta's exports to Brazil are from the primary agriculture sector, mainly wheat. Wheat exports grew by 73.8% between 1991 and 1992. Mining, including oil/gas/sulphur, valued at \$46.1 million, was Alberta's largest export commodity to Brazil.

Colombia

Exports to Colombia increased from \$11.7 million in 1991 to \$29.4 million in 1992, a 150.6% increase. The value of wheat and barley were largely responsible for the increase in exports. Wheat exports grew from \$8.1 million in 1991 to \$17.5 million in 1992. This resulted in a 116.0% increase. Barley exports also increased significantly over 1991 levels of \$2.2 million to \$4.4 million, or a 104.4% increase.

Venezuela

Exports to Venezuela increased to a value of \$27.3 million in 1992 from \$24.2 million in 1991. The average annual growth in exports to Venezuela was an exceptional 99.7%. Total exports from all of Canada increased an average of 28.0% for the same four-year period.

Almost two-thirds of Alberta's exports to Venezuela were from the primary agriculture sector. Of the \$17.7 million in primary agriculture exports, \$16.8 million was wheat. Wheat shipments were down significantly (26.9%) from 1991 exports of \$23.0 million. The second largest sector of exports to Venezuela was manufacturing, specifically chemicals/products valued at \$6.2 million.

Chile

Exports to Chile increased by 14.0% in the past year. This contributed to a four-year annual average increase of 2.6%. This growth is lower than the four-year average for Canada which was 9.6%.

Primary agricultural products was the leading export to Chile. Alberta exported almost \$10.0 million in agricultural products, primarily wheat (\$9.8 million). Sulphur was the second largest export, valued at \$4.9 million. Coal rounded out Alberta's exports to Chile at \$3.7 million.

OCEANIA

In 1992, exports of goods valued at \$95.2 million were down from 1991 exports valued at \$131.0 million (27.3%). Over the past four years, Alberta exports on average have decreased at a rate of 8.4%.

ALBERTA EXPORTS TO OCEANIA

ALBERTA EXPORTS TO OCEANIA, 1992

Total Value of Exports \$95.2 Million

Australia

Australia is Alberta's largest market in Oceania and it is ranked thirteenth overall. Exports to Australia totalled \$73.4 million, a decline from 1991 values of \$117.3 million. Both Canada and Alberta have seen a decrease in exports over the past four years. For Alberta, the decline has been 10.2%, for Canada the decline has been 15.1%.

Exports to Australia primarily consisted of manufactured products (89.5%). Chemicals/chemical products valued at \$58.2 million were the largest portion of the manufacturing sector. Major commodities included urea, polyethylene, and sodium hydroxide. Urea exports totalled \$21.5 million, a 72.8% increase over 1991. Polyethylene exports decreased by 33.1% to \$17.5 million. Sodium Hydroxide was the third highest valued export to Australia in 1992. This is particularly significant as Alberta did not export sodium hydroxide to Australia in 1991.

New Zealand

With \$21.6 million in exports, New Zealand is Alberta's second largest market in Oceania. Significant growth (64.2%) in exports was seen between 1991 and 1992. The four-year annual average was relatively unchanged at 0.1%, while for Canada, the four-year average was -14.7%.

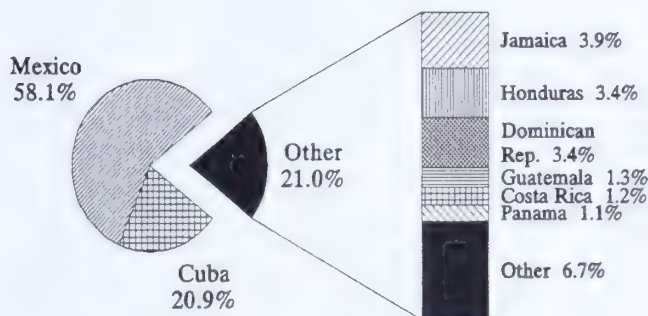

Alberta's primary export to New Zealand was sulphur, valued at \$10.7 million in 1992. This resulted in 108.7% growth over 1991. Manufacturing was the second largest sector recording \$9.8 million. The main products within the manufacturing sector were chemicals/chemical products, which resulted in \$7.9 million in Alberta exports. The majority of the chemical/chemical product export was polyethylene valued at \$6.6 million.

CENTRAL AMERICA, MEXICO AND THE CARIBBEAN

Exports to this region reached the highest level since 1989. Growth between 1991 and 1992 was 33.2%. The four-year average shows a 0.6% increase.

ALBERTA EXPORTS TO CENTRAL AMERICA, MEXICO & THE CARIBBEAN, 1992

Total Value of Exports \$126.2 Million

This region imports primarily agriculture products or manufactured goods. Agricultural products accounted for \$57.4 million or 45.5% of Alberta's exports to the region. Manufacturing accounted for \$51.6 million or 40.9% of Alberta's exports. Three manufactured products accounted for the majority of exports. These were food and beverages valued at \$14.5 million (11.5%); machinery at \$12.7 million (10.1%); and chemicals/chemical products at 10.3 million (8.1%).

Alberta's major export to Mexico was primary agricultural products. These exports totalled \$40.2 million. Wheat was a major component of this sector, accounting for \$28.6 million. Manufacturing accounted for \$21.4 million. Food and beverages at \$12.6 million accounted for 58.9% of manufacturing exports.

Cuba

Alberta exports to Cuba totalled \$27.3 million. 1992 exports increased by 50.2% over 1991. However, the four-year average showed a 0.8% increase. Canadian exports to Cuba have also declined over the past four years at an average rate of 9.8%.

Exports of manufactured goods were the leading Alberta export to Cuba in 1992 valued at \$18.2 million. Within the manufacturing sector, machinery accounted for \$10.4 million. Machinery exports were dominated by machine parts (\$5.7 million) and mobile drilling derricks (\$2.4 million). Primary agricultural exports were the second largest export to Cuba. Wheat and oats were the two main commodities.
